## FUNDRAISER FACTS & FIGURES

In solidarity with the people of Ukraine and with breweries around the world, Hopsylvania organized a fundraising event to help raise much needed money for humanitarian relief efforts in Ukraine. Together with local homebrewers, a series of solidarity beers were brewed and shared with the local community on the "International Day Of Living Together In Peace" in exchange for donations to support those impacted by the Russian war on Ukraine.

## FUNDRAISER MENU

The participating brewers put a lot of passion, time and effort into making some terrific beers by following recipes that were provided by several solidarity brew campaigns such as "Victory" by Pravda Brewery, "Resolve" by 42 North Brewing Co. & 2085 Brewery, and "Resist" by Drinkers For Ukraine. These were scaled to 20L homebrew batches by Radu Luchian of Hopsylvania with appropriate grain substitution. All costs were supported entirely by the brewers themselves.

Our solidarity beers had no fixed price, instead we trusted people to donate whatever they thought these were worth in a transparent donation box at the bar. 100% of the proceeds went towards official humanitarian relief efforts in Ukraine.
